Check Internet Explorer (IE) Version

To check the version of Internet Explorer (IE) for IE versions 9 and higher, launch Internet Explorer and

click the settings icon (**) in the far right corner of the window, and select **About Internet Explorer** from the drop down:

If running IE version 8, the version may be confirmed by clicking **Help** from the tool bar and then clicking **About Internet Explorer** from the drop down:

After clicking **About Internet Explorer**, a pop up window will be displayed that shows the version of Internet Explorer that is installed. If the pop up window does not indicate that the current version is **Internet Explorer 11**, as shown below, please contact your company's IT department, as Radley Products will soon be unable to accommodate earlier versions of Internet Explorer.
